ACKNOWLEDGMENTS

1. The Examiner acknowledges receipt of the amendment filed 11/30/04 wherein claims 1-3, 5-7, 9-11, 13-15, 17-19, and 21-23 were amended. In addition, Applicant's election of Group I is acknowledged along with the species set forth on page 22 of Applicant's response filed 11/30/04.

Note: Claims 1-24 are pending.

APPLICANT'S INVENTION

2. Applicant's invention is directed to macrocyclic chelants that are useful as metallopharmaceuticals. The compounds and uses thereof have the limitations as set forth in independent claims 1, 5, 9, 13, 17, and 21.

ALLOWABLE CLAIMS

3. Claims 1-24 are allowable over the prior art of record. In particular, the claims are distinguished over the prior art because the prior art neither anticipates nor renders obvious compounds and uses thereof as set forth in independent claims 1, 5, 9, 13, 17, and 21. The closest art is Applicant's own work, US Patent No. 6,685,914, wherein the claims are directed to structurally similar subject matter.

COMMENTS/NOTES

4. It should be noted that the uninitiated documents listed on the information disclosure statement were not provided for review in the instant application. In addition, it is noted that beneath the Examiner's signature and date on the disclosure statement is a note submitted by Applicant stating that a copy of the uninitiated references will not be forwarded to the USPTO.

5. It should be noted that initially Applicant's elected species was searched. However, since no prior art was found which could be used to reject the claims, the search was extended to the full scope of Group I.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
